

# Next Steps/Recap

-  BIBI recalibration
-  Compare 8 vs. 3 (do we need more data?)
-  Developing a regional indicator
-  Database enhancements
-  Taxonomy related – nomenclature changes, taxa resolution issues
-  What is missing? What interests you? How do you envision incorporating this info, if at all?  
What is impact of results you have seen?

# Connecting to Larger Regional Efforts

 How does B-IBI connect with or support other efforts?
